

TREVI IS AWARDED NEW ORDERS TOTALING ABOUT 135 MILLION USD AND SIGNS A MASTER AGREEMENT OF 380 MILLION DI USD

Cesena, 22 September 2014 – The **TREVI** division, specialized in ground engineering services, has recently been awarded new contracts in various countries totaling about **135** million USD:

- In Africa and in the Far East works will be carried out for a total value of approximately **48** million USD.
- In South America **TREVI** has been awarded a series of contracts for a total amount of approximately **65** million USD.
- In the Middle East **TREVI** has been awarded several contracts for a total value of the works of approximately **22** million USD.

The contracts relate mainly to infrastructure projects such as metros, river and sea ports, bridges and viaducts, industrial complexes, and Real Estate Developments.

Most orders are characterized by a high technological content and have been acquired both thanks to the over fifty years of experience of **TREVI** as well as to the foresight of using the most modern machinery produced by **SOILMEC**.

The **TREVI** division has also signed a master agreement with an important international private partner of the maritime infrastructure sector for the construction of a marine complex in Africa for a total value of approximately USD **380** million. The work is part of a project for the African infrastructure development which will increase significantly the logistical capacity of the region to meet the strong demand resulting from sea trade and from the oil industry.

The activities of design and construction will be carried out in several phases and completed in 2022.

For many years, **TREVI** Group has proven its excellent execution by completing with success

numerous works in the field of port infrastructure providing primary customers its expertise in the engineering of special foundations and ground consolidation.

The CEO of TREVI Group Stefano Trevisani commented: *“The signing of this Master Agreement in Africa worth USD 380 million confirms the global leadership of TREVI Group in the field of special foundations applied to maritime works. It is a contract of considerable importance and one of the largest ever carried out by the Group. We are very pleased to be able to take part in this important project for the development of this continent and we are confident that this agreement will provide a long-term visibility to our core business. TREVI Group also continues to acquire new orders in areas of historical interest. Awards in South America, the Middle East and Africa include the construction of road infrastructure, real estate developments and industrial installations related to energy development. The infrastructure sector as a whole continues to be very interesting and there are additional civil works projects. We remain well positioned both geographically and commercially to increase the volume of our business and to provide greater added value to company”.*

About TREVI GROUP:

Trevi Group is a worldwide leader in the field of soil engineering (special foundations, tunnel excavation, soil consolidation and the building and marketing of special rigs and equipment relevant to this engineering sector); the Group is also active in the drilling sector (oil, gas and water) both in the production of plant and the supply of services, and it also builds automated underground car parks. The Group was established in Cesena in 1957 and today has more than 30 branches and is present in over 80 countries. Its success is due to the vertical integration of the main divisions making up the Group: **Trevi**, the division that supplies special services in the field of soil engineering, **Petreven**, the oil drilling division of the Group, **Soilmec**, the division that produces and develops plant and machinery for soil engineering and **Drillmec** the division that produces and develops drilling rigs (oil, gas and water).

The parent company TREVI – Finanziaria Industriale Spa has been listed on the Milan stock exchange since July 1999. The key financial figures for 2013 are: Total revenues of €1,275.8 million, EBITDA of €143.8 million (margin of 11.3%), EBIT of €80.3 million (margin of 6.3%), and NET PROFIT of €13.8 million.
