

AWARDED NEW ORDERS TOTALING ABOUT 43 MILLION USD

Cesena, 12 December 2012 – The **TREVI** division, specialized in ground engineering services, has recently been awarded new contracts in the United States, West Africa and in Middle East totaling about **43** million USD:

- **TREVIICOS**, a subsidiary of the TREVI Group in the USA, has been awarded as subcontractor a contract for special foundations works at a strategically important location of the **U.S. Army Corps of Engineers** in the State of Nebraska. Works will include ground consolidation & safety, installation of tie-rods for the construction of infrastructure and diaphragm walls. The equipment utilized will be that of the Soilmec division and in particular the innovative "Cougar" hydromill designed specifically for the execution of complex diaphragm walls. This new contract is one of the first carried out by TREVIICOS in the State of Nebraska and confirms the capability of the company to acquire technologically complex projects in new areas of the United States. The contract is worth approximately **21** million USD and the works will be carried out in 10 months.

- **TREVI S.p.A.** will perform civil works and special foundations for the construction of a bridge and the revamping of certain infrastructure in West Africa. The contract, in particular, provides for the execution of bored piles onshore and offshore to a depth of 70 meters and will involve the use of innovative equipment for special foundations produced by the Soilmec division. The duration of the contract is of about 12 months for a total value of **15** million USD.

- In the Middle East **TREVI S.p.A.** has been awarded several contracts for infrastructural works relative to ground consolidation for a new railway line, refurbishment of a pier and construction of several viaducts. The total value of the works is of approximately **7** million USD.

The CEO of TREVI Group Stefano Trevisani commented: *“The recent contracts awarded in the United States, which represents one of our key markets, confirm the appreciation of historical clients with respect to the Group and its ability to execute projects at the state of the art. West Africa and the Middle East, once again, prove to be areas of significant opportunities and during the course of the year we were able to acquire several small to medium size orders. We remain focused on exploring new important scenarios which can provide added value to the Group.”*

About TREVI GROUP:

Trevi Group is a worldwide leader in the field of soil engineering (special foundations, tunnel excavation, soil consolidation and the building and marketing of special rigs and equipment relevant to this engineering sector); the Group is also active in the drilling sector (oil, gas and water) both in the production of plant and the supply of services, and it also builds automated underground car parks. The Group was established in Cesena in 1957 and today has more than 30 branches and is present in over 80 countries. Its success is due to the vertical integration of the main divisions making up the Group: **Trevi**, the division that supplies special services in the field of soil engineering, **Petreven**, the oil drilling division of the Group, **Soilmec**, the division that produces and develops plant and machinery for soil engineering and **Drillmec** the division that produces and develops drilling rigs (oil, gas and water).

The parent company TREVI – Finanziaria Industriale Spa has been listed on the Milan stock exchange since July 1999. The key financial figures for 2011 are: Total revenues of €1,061.4 million, EBITDA of €119.0 million (margin of 11.2%), EBIT of €69.3 million (margin of 6.5%), and NET PROFIT of €25.7 million.
