

TREVI AWARDED NEW ORDERS IN THE MIDDLE EAST TOTALING ABOUT 100 MILLION USD

Cesena, 24th February 2014 – The **TREVI** division, specialized in ground engineering services, has recently been awarded new contracts in various countries in the Middle East totaling about **100** million USD:

- **TREVI** will perform civil works and special foundations for infrastructure projects in Qatar, Kuwait, Saudi Arabia, Oman and Dubai.

The works, in particular, will involve for the construction of diaphragm walls for infrastructure as well as the execution of piles involving the use of innovative equipment for special foundations produced by the Soilmec division.

The CEO of TREVI Group Stefano Trevisani commented: *“The Group continues to acquire new orders in the Middle Eastern area confirming the increased demand for special foundation works relative to infrastructure for the transport sector with leading international companies among which some of the major Korean ones. The signals from the infrastructure market are positive and we remain focused on acquiring new added value contracts for the company.”*

About TREVI GROUP:

Trevi Group is a worldwide leader in the field of soil engineering (special foundations, tunnel excavation, soil consolidation and the building and marketing of special rigs and equipment relevant to this engineering sector); the Group is also active in the drilling sector (oil, gas and water) both in the production of plant and the supply of services, and it also builds automated underground car parks. The Group was established in Cesena in 1957 and today has more than 30 branches and is present in over 80 countries. Its success is due to the vertical integration of the main divisions making up the Group: **Trevi**, the division that supplies special services in the field of soil engineering, **Petreven**, the oil drilling division of the Group, **Soilmec**, the division that produces and develops plant and machinery for soil engineering and **Drillmec** the division that produces and develops drilling rigs (oil, gas and water).
