

TREVI GROUP IS AWARDED SIGNIFICANT NEW ORDERS TOTTALLING EURO 96 MILLION

Cesena, June 9th 2011 – The **Trevi** division, specialized in ground engineering services, has signed during the months of April and May, a number of contracts which are significant both in terms of technology to be applied in the projects and the scale of the work involved in different geographical areas.

In Africa the contracts involve, for a total of USD 42 million, important harbor works which will be carried out in West Africa. The company will also be involved in the construction of two important ports for a total of EUR 12.4 million.

In Algeria the new orders involve infrastructural works for a total of EUR 12 million including the extension of the metro lines in Algeri.

In Italy the company will be involved in carrying out ground consolidation works for the realization of a tunnel in Senigallia for a total of EUR 15 million.

Trevi secured, with success, orders in the Middle East to carry out ground consolidation works for for the extension of a refinery in Abu Dhabi and in Oman.
The total of the orders accounts for about EUR 8 million.

In South America the company will conduct harbor works in Argentina for a total of USD 22 million. In Panama, instead, it will conduct works for the extension of the canal for an estimated amount of USD 5 million.

Stefano Trevisani, Chief Executive Officer, commented: *“These recent acquired orders in the foundations sector signal, along with the significant market trend in Oil&Gas confirmed by Drillmec’s acquisitions, the steady recovery of the infrastructural market in the primary geographical areas in which the Group permanently operates”*

About TREVI GROUP:

Trevi Group is a worldwide leader in the field of soil engineering (special foundations, tunnel excavation, soil consolidation and the building and marketing of special rigs and equipment relevant to this engineering sector); the Group is also active in the drilling sector (oil, gas and water) both in the production of plant and the supply of services, and it also builds automated underground car parks. The Group was established in Cesena in 1957 and today has more than 30 branches and is present in over 80 countries. Its success is due to the vertical integration of the main divisions making up the Group: **Trevi**, the division that supplies special services in the field of soil engineering, **Petreven**, the oil drilling division of the Group, **Soilmec**, the division that produces and develops plant and machinery for soil engineering and **Drillmec** the division that produces and develops drilling rigs (oil, gas and water).

The parent company TREVI – Finanziaria Industriale Spa has been listed on the Milan stock exchange since July 1999. The key financial figures for 2010 are: Total revenues of €952.9 million, EBITDA of €137.3 million (margin of 14.4%), EBIT of €84.3 million (margin of 8.8%), and NET PROFIT of €46.4 million.
