

DRILLMEC AWARDED CONTRACTS FOR THE SUPPLY OF 5 OIL AND GAS DRILLING RIGS IN EASTERN EUROPE AND RUSSIA

Cesena, 19 August 2011

Drillmec, a Division of TREVI Group, is to supply 5 oil and gas drilling rigs, including hydraulic and conventional plant, to clients operating in Eastern Europe and Russia.

The total value of the orders received is about € 45 million.

The contract is particularly important as it will allow the Group to further expand the presence of its HH series hydraulic equipment in this important region, with a market leading client. The consolidation of the market presence of the range of conventional products in Eastern Europe with two important clients is no less significant; these sales having been achieved during a period in which the operators in the region are recommencing significant investment programmes.

The rigs will be utilised primarily in the Shale Gas sector.

Drillmec rigs were chosen by the companies involved, following an extremely detailed analysis, because of their technical characteristics and because of Drillmec's recognised experience in the customisation of drilling rigs and in adapting them to severe winter conditions, and due to Drillmec's proven long-term commitment to research and development.

About TREVI GROUP:

Trevi Group is a worldwide leader in the field of soil engineering (special foundations, tunnel excavation, soil consolidation and the building and marketing of special rigs and equipment relevant to this engineering sector); the Group is also active in the drilling sector (oil, gas and water) both in the production of plant and the supply of services, and it also builds automated underground car parks. The Group was established in Cesena in 1957 and today has more than 30 branches and is present in over 80 countries. Its success is due to the vertical integration of the main divisions making up the Group: **Trevi**, the division that supplies special services in the field of soil engineering, **Petreven**, the oil drilling division of the Group, **Soilmec**, the division that produces and develops plant and machinery for soil engineering and **Drillmec** the division that produces and develops drilling rigs (oil, gas and water).

The parent company TREVI – Finanziaria Industriale Spa has been listed on the Milan stock exchange since July 1999. The key financial figures for 2010 are: Total revenues of €952.9 million, EBITDA of €137.3 million (margin of 14.4%), EBIT of €84.3 million (margin of 8.8%), and NET PROFIT of €46.4 million.
