

**INFORMATION REQUIRED BY CONSOB PURSUANT TO ART.114 OF THE LEGISLATIVE DECREE No.58/98**

**Cesena, November 14, 2018** – Trevi Finanziaria Industriale S.p.A. (the "**Company**"), announces the postponement of the approval of the 2018 interim results at September 30, 2018 and, as requested by Consob on October 26, 2017 pursuant to art. 114 of the Legislative Decree No. 58/98, integrates the annual financial reports, semi-annual financial reports and interim management reports, if published on a voluntary basis, as well as the press releases relating to the approval of such accounting documents, with the following information:

- a) the Company and the Group's net financial position, with separate disclosure of the short-term position and the medium/long-term position;
- b) the Company and the Group's overdue payables, analysed by nature (financial, trade, tax, social security and employees) and any related creditors' reaction initiatives (payment reminders, injunctions, suspensions of supplies, etc.);
- c) the Company and the Group's main variations in the transactions with related parties compared to the approved last annual or semi-annual financial report pursuant to Art.154-ter of TUF;
- d) any failure to comply with *covenants*, *negative pledges* and any other Group debt-related clause entailing the imposition of limits on the use of financial resources, with an up-to-date indication of the extent of the compliance with the clauses;
- e) the status of the implementation of any business and financial plans, with disclosure of variances between actual and forecast figures.

The following is the above additional information requested.

**a) The Company and the Group Net Financial Debt at September 30, 2018.**

The Net Financial Position of the Company at September 30, 2018 amounted to Euro 302.6 million and is shown below:

<b>NET FINANCIAL DEBT</b>	<b>30/09/2018</b>	<b>31/12/2017</b>	<b>Change</b>

**d) *Covenant, negative pledge and any other indebtedness clause of the Group entailing limits on the use of financial resources, with an updated indication of the level of compliance with such clauses.***

The Trevi Group entered into some loan agreements that provide the compliance with certain *covenants* calculated on the annual consolidated financial statements and specifically:

- Net Financial Position/EBITDA: debt indicator, calculated as the ratio between net financial debt and EBITDA;
- Net Financial Position/Shareholders' Equity: debt indicator, calculated as the ratio between net financial debt and shareholders' equity.

The bond loan named "Minibond 2014-2019" also provides for - in addition to the previous covenants - a further *covenant* calculated on the consolidated financial statements:

- EBITDA/Net Financial Charges: indicator of the incidence of the costs for the interest expenses, calculated as the ratio between EBITDA and interest expenses.

As already reported in the press release published on April 27, 2018 (available on the website [www.trevifin.com](http://www.trevifin.com), under the "Investor Relator/Press Releases" section), as at December 31, 2017, the aforementioned covenants were not complied with.

With regard to Credit Institutions, since these are the same institutions with which the *standstill* agreement has been signed, the *waiver* on financial *covenants* takes part of the requests formulated to them under this agreement.

As regards the bond loan, it should be noted that in April the Bondholders' Meeting was called and was unable to approve the waiver resolutions, since the necessary quorums for the valid constitution of the meeting were not achieved. The failure to constitute the Bondholders' Meeting and the failure to approve the resolutions does not have any effect on the indebtedness deriving from the bond loan.

As of the expiring instalment on July 31, 2018 the Company has also suspended the payment of interest on the bond loan, as already communicated in the press release of July 27, 2018 (available on the website [www.trevifin.com](http://www.trevifin.com) , section "Investor Relator / Press Releases" ).

The loan agreements between the companies belonging to the Trevi Group and the banks contain additional clauses (such as the *cross-default* clauses) that might be breached in the current situation. In addition, the commencement of the negotiations with creditors and/or a moratorium on payments are "relevant events" according to the abovementioned agreements. The *standstill* agreement provides for an obligation by the financial parties not to enforce the aforementioned clauses.

Furthermore, Trevi Group has entered into agreements with certain international insurance companies providing, on behalf of the American entities of the Trevi Division, for the guarantees necessary to cover the obligations of the companies in the context of their activity (such as *performance bonds*, *bid bonds*, *advanced payment bonds*, etc.) In this regard, it is worth to highlight that such agreements include clauses such as *negative pledges*, *cross-default*, *change of control*, etc. However, the agreements have been reached with these companies in order to continue operating with them even during this phase.

The same clauses are also provided by the regulation of the bond loan named "Minibond 2014-2019". In this regard, reference is made to the foregoing.

As of today, except the abovementioned *covenants* and *cross default* clauses, there are no other contractual clauses (i.e. *negative pledge*, *change of control*, etc.) signed by the Trevi Group with reference to the *committed* loan agreements and typically provided in relation to which it is necessary to disclose the breach.

Lastly, as regards the definition of the Trevi Group capital strengthening and debt restructuring, negotiations with the lending banks and the main shareholders of the Company continue, notwithstanding a partial extension of the originally expected timing already disclosed to the market, lastly with the press release of October 8, 2018 (available on the website [www.trevifin.com](http://www.trevifin.com) , section "Investor Relator / Press Releases"), the Company believes will be able to achieve a rapid solution, however consistent with the term of effectiveness of the aforementioned standstill.

e) **Below, the status of the implementation of the industrial and financial plan, highlighting the differences of the final data compared to the expected ones:**

At September 30, 2018, the following significant differences were found with respect to the same period of the previous year in relation to the main items of the income statement and net financial position:

- Total revenues lower than the same period of the previous year; this reduction is mainly attributable to the Foundations sector even though the Oil & Gas sector also recorded a decline;
- The Net Financial Position is worse than the same period of the previous year, mainly as a result of the decrease in cash and cash equivalents.

The positive order collection recorded in the first nine months of 2018, both in the Foundations sector and in the Oil & Gas sector, should be noted.

\*\*\*

Without prejudice to what has been mentioned in letter a) in the second part of the press release, the C.F.O., Marco Andreasi, in his position as the Director responsible for drawing up the Company's accounting statements, hereby declares, pursuant to Article 154-bis, paragraph 2 of the Consolidated Law on Finance, that the information contained in this press release accurately represents the figures contained in the Company's accounting records.

This press release contains forward-looking statements. These statements are based on the current estimates and projections of the Group, relating to future events and, by their nature, are subject to an intrinsic component of risk and uncertainty. Actual results may differ materially from those contained in such statements due to a variety of factors, including continued volatility and further deterioration of capital and financial markets, changes in macroeconomic conditions and economic growth and other changes in business conditions, in addition to other factors, the majority of which is beyond the control of the Group.

**About Trevi:**

*Trevi Group is a worldwide leader in the field of soil engineering (special foundations, tunnel excavation, soil consolidation and the building and marketing of special rigs and equipment relevant to this engineering sector); the Group is also active in the drilling sector (oil, gas and water) both in the production of plant and the supply of services, and it also builds automated underground car parks. The Group was established in Cesena in 1957 and today has more than 30 branches and is present in over 80 countries. Its success is due to the vertical integration of the main divisions making up the Group: Trevi, the division that supplies special services in the field of soil engineering, Petreven, the oil drilling division of the Group, Soilmec, the division that produces and develops plant and machinery for soil engineering and Drillmec the division that produces and develops drilling rigs (oil, gas and water). The parent company has been listed on the Milan stock exchange since July 1999.*
