The main changes in the **Group** Net Financial Position as of December 31, 2020 compared to June 30, 2020 are due to the payments of trade payables to suppliers of goods and services and the payments of financial liabilities to leasing companies. As a consequence, cash decreased by around Euro 36,8 million.

The Net Financial Debt of the financial statements of the Company at June 30, 2020 and December 31, 2020 includes the partial write-down of intercompany financial receivables; this effect does not generate any impact in the consolidated Net Financial Debt.

Moreover, it may be noted that, on the basis of the above data and preliminary information in relation to the development of the financial year ended 31 December 2020, also conditioned by the negative effect of the COVID-19 pandemic on the economy worldwide, which has affected the Business of the Group - it's possible to predict that, when the Trevi Group consolidated financial statements will be approved, as scheduled for 29th March 2021, a failure to meet one of the financial parameters, set out within the restructuring agreement signed with the lending banks on August 5th 2019, particularly, the ratio of net financial debt and consolidated recurring EBITDA. The Company is carrying out the appropriate in-depth insights and intend to initiate the soonest the preliminary discussions with the lending banks, to evaluate very well in advance, the available solutions in order to cope with the above-mentioned eventuality.
